2 free tickets*

**Connect ~ Engage ~ Leadership ~ Learn ~ Influence**

Our mission is to bring together the top players in the Greater Chicago area and beyond to make valuable business connections, discuss cutting-edge ideas, and promote the development of innovative strategies and companies that will lead the world to a clean economy.

CCEA is the largest networking group in the Greater Chicago area for influential decision-makers in the energy space attracting experts in wind, solar, biomass, bio fuel, coal, nuclear, carbon capture & sequestration, emissions trading, education, government, and professional services.

The CCEA offers an exciting format to the Chicago business community that includes prominent speakers, targeted speed networking, and unstructured open networking. We bring in corporate leaders, government officials and other energy experts to educate members on the latest trends and policies in building a clean economy and facilitate the development of mutually beneficial 'win-win' relationships.

CCEA is an Illinois 501c3 organization. We welcome donations which are used to support our events and promote the growth of a clean economy. Donations are tax-deductible.

### **Additional Opportunities**

Product Give-A-Ways  
Product Sampling  
Donated Services
